THREE TREASURES

Oi-Lin® Eye Cream, Dr. Chen® Refining & Lifting Cream, Dr. Chen® Brightening Serum

Awaken your beauty with this exclusive collection. Containing a wealth of herbal extracts, these advanced treatments fight the visible signs of aging and reveal brighter, tighter, more youthful-looking skin. With regular use, wrinkles and discolorations appear to fade away, leaving skin with an appearance of enhanced clarity and smoothness. Oi-Lin® Eye Cream and Dr. Chen® Refining & Lifting Cream also contain peptides.

HOLIDAY GLAMOUR

FACE

- Apply Dual Pressed Powder, choosing your desired finish: matte or wet. Matte finish: apply dry with a large powder brush. Full coverage: apply with a damp makeup sponge.

EYES

- Apply the highlighter shadow (lighter color) all over the eyelid.
- Apply the contour shadow (darker color) from the outside corner inward. Blend into the outer crease area, and then all the way across to the crease's inside corner. Smudge into lower lash line.
- Finish with Kandesn® Liquid Eyeliner to the upper lid and Kandesn® Lash Enhancer Mascara to upper lashes only.

CHEEKS

- Lightly apply blush to the cheekbones and blend backwards and up, following the natural contour of your cheekbone.

LIPS

- Choose a color from Lip Color Palette Set 1 (we like Red 184 for the holidays!) and apply with the included retractable lip brush.

MANUFACTURING SPOTLIGHT

Inside Sunrider's Cosmetics & Skin Care Production

Our manufacturing facilities house the most advanced pharmaceutical-grade machinery specially customized for our products. Here are some key areas in our skin care and color cosmetics production:

Hair & Skin Care Development

After painstaking safety evaluations, efficacy testing, and review and approval by Drs. Chen, ingredients are formulated into creams, lotions, soaps, shampoos, and more.

Product Stability Testing

Products are subjected to high heat and both high and low humidity conditions to accelerate aging so we can determine shelf lives and safe "use by" dates.

Color Product Development

Mrs. Chen insists on keeping Kandesn® products on the cutting edge of fashion and color—and there is no shortage of it here! With over 150 colorants currently in use in Sunrider® products and hundreds more available, we can develop a nearly infinite range of new shades.

Kandesn® Lip Color Production

The lipstick base and color pigments are blended and heated in steam-jacketed kettles. Then, they go into pouring tanks where they are constantly mixed and kept at a precise temperature. The liquid lip color is then poured into pre-heated molds and cooled.

Powder Mixing & Pressing

This is where our eyeshadows, blushes, and powders are made. Mixers and pulverizers grind and mix materials into powders, and then the powder is pressed into its final form. Later, it's vacuumed and inspected to ensure its appearance and net weight are correct before packaging.

Because we control the development, synthesis, and distribution of our products from "A to Z," you can rest assured they are safe and healthy!

Banish Holiday Stress

Three Products to Ease Seasonal Chaos

During the holidays, it's easy to become stressed, overwhelmed, and out of balance. Try these Sunrider stress busters to enjoy the season in a serene state of mind.

Ese® nourishes the body to support concentration, clear focus, and mental clarity.* You can think of Ese® as "food for thought." Key ingredients include uncaria rhynchophylla stem and aster tataricus root.

Calli® Night is an exclusive combination of herbs designed to help provide a good night's sleep. It can also be used during the day to help you relax under stress. There are no chemicals or caffeine added to this all-natural formula.

Bella® works in unison with the body's natural processes to balance energy and promote feelings of serenity and calm focus for women of all ages.* Its calming properties also help bolster a deeper, more restful sleep, especially when taken before bed.

* These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.
